# GARDEN CHIT CHAT

Welcome to our 44th edition iris catalogue. As I write this letter, it is cold and dreary outside. Looking through scores of photos of iris in preparing this catalogue and updating the website inspires us with ideas of new crosses to make in the spring. With winter doldrums and thumbing through old catalogues, it makes us realize how important and relevant the printed version still is. There is just something warm and cozy about sitting in a nice comfy chair with a warm drink and catalogue or book in hand. As fast and convenient as a computer or website are, there is still no comparison to thumbing through a paper version. So, for the time being we are going to continue with the print version. I am sure there will come a day when we will be online only, but for now we are planning to continue with the paper catalogue. We always enjoy hearing your thoughts and feedback.

2023 was a busy year for us here at Mid-America Garden. Sales were strong and we added several new countries to the list of places that we ship to. Sometimes international sales can be quite challenging, to say the least. It is always amazing to us how the love of Iris is so universal and unifying, and it is strangely comforting to know there are iris addicts all over the world. Thank you everyone far and wide for your support of our passion.

As we go to press I am in the process of making a sizeable donation to The Olivia Newton-John Cancer and Wellness Centre in Australia. Thank you to everyone who contributed to this wonderful cause

through your purchase of 'Lovely Livvy'. You shattered all sales records and are making a difference through your donation towards breast cancer research.

If you are not following us on Facebook, please look us up and click on like or follow. We post many photos of upcoming introductions and seedlings. I also announce such things as surplus sales and opening and closing dates on this platform. I am planning on doing a series of short videos showing different aspects of our operation, from how we dig and process orders to fall field replanting. I hope you will find these videos fun and educational.

It was a good year award-wise for our Mid-America Garden family of hybridizers. Paul Black dominated in the median classes, winning the top award for BBs, IBs, MDBs, and ABs with less than 50% aril content. What's New Pussycat (BB), Black Comedy (IB), Black Olive (MDB), and Perry Dyer (AB) were the award winners. I was happy to hear that Oh Canada won the Cook-Douglas medal for SDBs. There were also many Award of Merit and Honorable Mention awards for Paul, Lynda and myself. Thank you to all of the judges who took the time to grow and evaluate our hybrids.

Happy gardening and peace to all,

*Thomas*

## PAUL BLACK TALL BEARDED INTRODUCTIONS

**BEAUTIFUL ESSENCE (P. Black '24) TB Midseason-late 34" (86.5cm) Sweet fragrance.** Yes, another 'Crocodile Smile' offspring. To say its plicata markings are subtle is an understatement. Some might question it being a plicata, but both parents are plicatas. It isn't a glaciata because there are some subtle anthocyanin markings. A beautifully elegant flower, with all good garden traits, it should be an excellent parent. Standards are warm white with a pale stitched edge. Falls are warm white with minimum buff plicata hafts and edge. Sdlg. BB105D: Crocodile Smile X Z62C: (All Too Exciting x Black U53X, Rise Like A Phoenix sib) **\$65.00**

**COLORING BOOK (P. Black '24) TB Early-midseason 32" (81.5cm) Sweet fragrance.** Could you possibly put more color on an iris? I've been looking forward to introducing this spectacular iris since its maiden bloom. You won't mistake it for any other, and that uniqueness will attract the judges when show stalks are exhibited. **ENTHUSIASTIC** (P. Black '24) TB Early-Late 35" (76cm) Sweet fragrance. Larger flowers have loads of color and carrying power. Expansive wide falls boost its garden presence. **FIVE STAR** (P. Black '24) TB Early-Midseason 32" (81cm) Sweet fragrance. Gorgeously formed, ruffled, and lightly laced blooms are adorned with big delicious beards. Light mid pink standards are blended buff at the edges. Falls have a creamy cantaloupe center with orange hafts and lighter edge. Supremely show-branched stalks have 3 branches and spur resulting in 10-12 blooms. Very strong, robust, and clean growth. A favorite since maiden bloom; everything about it is five stars!! Sdlg. Garden Appeal

Go Cat Go

**GO CAT GO** (P. Black '24) TB (small flowered) Midseason-late 32" (81.5cm) Sweet fragrance. Here we have one of my infamous "small flowered tall bearded" introductions. Disclaimer: There is no such class. It is a TB, the only class for it. It is from about as diverse a parentage as one can get. There are TBs, tet MTBs, IBs, and SDBs in its background. What a breeding bonanza! Expect considerable variation in seedling heights in breeding. Clumps are filled with show stalks that have 3 to 4 branches and 12-15 buds. It is a showstopper. Growth and disease resistance is A++. Perfect for windy areas prone to toppling taller TBs. Every garden should have one. Sdlg. BB111D: Black Label X Black Y77A: (Black U59A: (Soft Whisper x Simply Coral) x Daffy Duck) **\$65.00**

**HIDDEN FEATURE** (P. Black '24) TB Midseason-late 34" (86.5cm) Spicy fragrance. At first glance, Hidden Feature appears to be a glaciata, but don't be deceived. The sun-sensitive anthocyanin (blue/purple pigment) on the fall reverse is activated by exposure to the sun. It is the reason for the irregular application from petal to petal. Intriguing and unusual, but not a rare occurrence. The pattern is called "celestar". Larger flowers boldly call from a long distance. Sdlg. AA93A: Hey Look Me Over X Black Y76A: (Black U53G, Rise Like A Phoenix sib x Black U20D, Easy As Pie sib) **\$65.00**

Hidden Feature

Hodgepodge

**HODGEPODGE** (P. Black '24) TB Midseason-late 33" (84cm) Sweet fragrance. A very pleasing pastel broken color with strong growth and 8-9 buds. Standards are mid lilac in the center with irregular streaks of peach and a cream band. Falls have a pale violet center blending into a wide pale pink band. Hafts are light peach, veined white, and there are irregular light to dark random streaks of violet overall. Ruffled! Sdlg. AA11M: Big Break X You're A Mess **\$70.00**

Indiscriminate

**INDISCRIMINATE** (P. Black '24) TB Midseason 35" (89cm) Sweet fragrance. A broken color plicata, coming from 'Me And My Shadow'. No two flowers alike, as the degree of stippling and dotting in ratio to broken color changes from bloom to bloom. Taller show stalks have 3 branches and sometimes a spur with 9-11 buds. Plants are strong with vigorous growth and increase. An exciting and fun pattern. Sdlg. AA89U: Me And My Shadow X Black Y54B, Drag Race sib **\$75.00**

**LEMON PEEL** (P. Black '24) TB Early-midseason 34" (86.5cm) Musky fragrance. Another of the 'Crocodile Smile' offspring, with bright yellow ground falls. Plicata markings are variable from flower to flower, which indicates 'Crocodile Smile' or its offspring should be good to pair with broken color plicatas. A waxy texture over the falls is fairly common. Notice the vivid yellow styles. Fun and unique. Sdlg. BB104L: Crocodile Smile X Black Y135A: (All Too Exciting x Fancy Ideas) **\$70.00**

Lemon Peel

Magic Blue

**MAGIC BLUE** (P. Black '24) TB Early-midseason 34" (86.5cm) Sweet fragrance. Smaller flowered it is, but with an impact that is unforgettable. A clump completely filled with stalks and myriads of clear light blue flowers creates an amazing memorable moment. You won't mistake it for any other blue iris. It is the result of a tet MTB X TB cross. Rampant and compact growth ensures a clump filled with bloom. Sdlg. BB181P: Silver Ice X Belle Fille **\$65.00**

**MAKE UP YOUR MIND** (P. Black '24) TB Early-midseason 33" (84cm) Sweet fragrance. This is one of the first broken color plicatas. Subsequent generations indicate it is an inheritable trait, so let the breeding begin. Nothing in the parentage indicates the possibility of broken color. About 1/3 of the seedlings from this cross were plicatas, about 1/3 were selfs, and about 1/3 were broken color plicatas. Well-branched stalks have 2 branches and a spur producing 7-9 blooms. Vigorous growth provides quick clumps. Intriguing to see each flower marked differently. Sdlg. AA84T: Come And Dance X Starry Starry Night **\$70.00**

Make Up Your Mind

**NEVER NEVER LAND** (P. Black '24) TB Midseason-late 34" (86.5cm) Sweet fragrance. 'Me And My Shadow' has been an excellent parent. I am excited about the possibilities of using **Never Never Land** in plicata breeding since it is half plicata. Its vivid red-orange beards will be a wonderful bold addition when transferred to plicatas. Superior garden traits make it a great garden subject. Standards are light blue with a tan wire rim. Falls are velvety purple black with a narrow purple band. A touch of light apricot in the center accentuates the bold red-orange beards. Sdlg. BB164D: Daffy Duck X Me And My Shadow **\$70.00**

**NIGHT AFTER NIGHT** (P. Black '24) TB Midseason-late 36" (89cm) Sweet fragrance. Bountiful ruffles give a bubbly presence to these handsome dark flowers. Larger flowers on well-branched stalks make quite a sight in the garden. Cool beards are big and bushy, with a purple base with orange tips in the throat and center, and purple with white frosted tips at the end. Sldg. **PRETTY SIGHT** (P. Black '24) TB Early-midseason 34" (86.5cm) Sweet fragrance. This taller sibling of 'Make Up Your Mind' is a very handsome traditional plicata in a lovely cornflower blue shade. It adds one more branch and a complement of 9-10 buds on show stalks. It too is a strong clean grower. Standards are a near solid cornflower blue with a buff wire edge. Falls have a white ground with cornflower dotting inside a more solid band, and then a complementary buff band. Sdlg. AA84X: Come And Dance X Starry Starry Night **\$65.00**

**Ripples In Time**

**RIPPLES IN TIME** (P. Black '24) TB Late 35" (89cm) Sweet fragrance. Amply ruffled flowers are displayed on superbly branched show stalks. Strong growing, disease resistant foliage makes **Ripples In Time** a good landscape plant. Three branches and a spur provide 10-11 buds. Its lovely pastel color is a perfect foil for darker colors. Standards are lemon with gold centers. Falls are a blended pale violet to blue with a distinctive deep violet blue center stripe. Sdlg. BB8N: Colour Bazaar X All Ashore **\$65.00**

**SACK OF SUNSHINE** (P. Black '24) TB Early-midseason 35" (89cm) Sweet fragrance. This vigorous and hardy yellow ground plicata comes from very different breeding. It produces consistent show stalks that are at home in the garden or on the show bench. Plicata markings are somewhat variable from one year to the next. Use it to breed for better plicata winter hardiness. Sdlg. BB98A: Black Y52B: (Black U14A: (Dog Days x Black R133A: (Black O159B: (Out Of The Dark x Sea Power) x Black P75B: (Black L83D, Wonders Never Cease sib x Cheap Frills))) x Black U1A, Luxuriant sib) X Black Z90F: (Black V143B, Heartfelt sib x Black V154F: (Black S114B, Dare Me sib x Black S112H, Bright On Top sib)) **\$65.00**

**So Happy Together**

**SO HAPPY TOGETHER** (P. Black '24) TB Midseason-late 35" (89cm) Musky fragrance. The quest for a TB with blue standards and pink falls has been a long and frustrating road for many hybridizers. Along the way there are beautiful seedlings worthy of introduction, and this is one of those. Larger flowers are carried on sturdy stalks. Notice the peach pink styles peering from between violet-blue standards. Standards are a blended light blue-violet and pink. Falls are blended light orchid pink with a slight buff center stripe below the beard. Sdlg. BB86E: Bubbly Beauty X For Lovers Only **\$65.00**

**SPECIAL AGENT MAN** (P. Black '24) TB Midseason-late 35" (89cm) Sweet fragrance. Another 'Crocodile Smile' child. It has an interesting combination of cool colored standards and warm falls. Falls show a slightly different expression of the plicata pattern. Also notice the interesting dotted plicata pattern on the back of the falls, characteristic of many 'Crocodile Smile' offspring. Near solid gray plum standards sit atop butter yellow ground falls with a nearly solid overlay of dark plum and marigold beards. Sdlg. **SURE TO TURN HEADS (P. Black '24) TB Midseason-late 33" (84cm) Sweet fragrance.** Put this iris at the top of your list. Its maiden bloom said, "I'm a star," and so it is. It easily makes my top ten list. Tight compact form and heavy substance ensure it won't fall apart in adverse weather. Exuberantly ruffled standards contrast with tightly pie crust ruffled fall edges so as to adorn but not obscure the stunning plicata patterning. Sturdy show stalks have 4 branches with 11-14 buds. Growth is robust and clean. Clumps are filled with stalks and bloom. You're sure to turn your head as you walk by. Sdlg. BB106B: Crocodile Smile X Black Z100D, Background Noise sib **\$70.00**

Add entrancing color and show stalks and you have something you won't soon forget. Stalks can have 4 branches and a spur with a 12-14 bud total. Take me to a show!
