GARDEN CHIT CHAT

Welcome to the 46th issue of the Mid-America Garden catalogue. I would like to express my sincerest gratitude to all who have supported Mid-America Garden through this past year. I have absolutely the best customers, and I want you to know that you are very much appreciated. How lucky I am to be able to live my passion for iris and hybridizing; I am truly blessed.

As I move into my 60th birthday year, I am starting to re-evaluate a few things here. Even though I don't consider myself "old", I am also no longer in my 20's or 30's. I have always taken great pride in the fact that I am fully involved in every process of the business. From the catalogue here in your hands, through all the facets of field work, and office work, I am involved. Depending on the time of year, you will find me out in the field weeding with the hoe, digging and moving seedlings, digging and washing plants that are going out on orders, and packing orders into boxes. I am also the office person, who does all the communication, promotion, books, and order processing. During iris bloom season, it is full on, with evaluating seedlings, taking photographs and videos, and the most fun part, hybridizing, or as I sometimes call it, making more work!

In addition to Mid-America Garden, I am also very busy with two other passions. I am not only an iris fanatic, but a certified plant nerd, and also a poultry breeder. Some of you know that I also own another nursery with my partner, called Sebright Gardens. The "gardens" part of Sebright is a 6-acre display garden that is full of the rarest of the rare trees, shrubs, and perennials, from every corner of the globe. The name 'Sebright' comes from a breed of bantam chickens. I breed several varieties of exotic bantams, and am currently working on several new patterns across different breeds.

Why is all of this important? For years, I have been accustomed to 16-17 hour work days. I have been happy to do it, as I truly love my life and all that I do. However, my body is starting to tell me that these kinds of hours are no longer a reality. I am so grateful for the group of people that I have working for me. Each and every one of them is not just an employee, but a part of the team, and in reality, part of the family. This past year I have had several health-related issues come up, and it has forced me to think about how I want to spend my time. I have come to the realization that it is time to start to smell the irises a bit more often. I am certainly not planning on scaling back on the fun things, like my hybridizing. I am starting to take a closer look at reducing my work load, handing more of it off to my employee family, and making a few changes in the coming year.

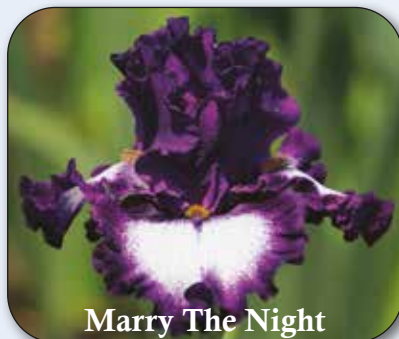

I attended the American Iris Society national convention this past year in Billings, Montana. What a convention it was, with beautiful weather, scenery, and peak iris bloom throughout all the excellent gardens on tour. Thank you so much to Delane Langdon, Jane Tibbs, Tina Muller and all the team who worked diligently to make this a fantastic and memorable convention. I was particularly excited to win the Franklin Cook Cup for best guest iris from out of region with the variety Ignite The Light.

2025 was a good year for American Iris Society awards. I won a Wister Medal for Marry The Night (TB), Cook Douglas Medal for Blue Eyed Girl (SDB), and Caparne-Welch Medal for Kay (MDB). A huge thank you to all of the AIS judges out there who took the time to grow and evaluate my iris. Now let's hope that 2026 will be the best iris season ever!

ANTI HERO (Thomas Johnson '26) TB Early-midseason 36" (91cm) Sweet fragrance. An absolutely stunning flower with very wide overlapping hafts and exuberant ruffles. The color of the standards is a very complex blending of orange, light orange, pink, and lavender tones. Falls are creamy white with peach touched hafts and a wide lilac to lavender band. **Anti Hero** is also blessed with nicely branched and budded stems, making her a winner on the show bench as well. Sdlg. TO187B: Just Between Us X unknown seedling number, illegible tag \$75.00

Anti Hero

ARE YOU KIDDING ME (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Slight sweet fragrance. The name was inspired by our young iris enthusiast friend Dylan Just. If you have ever seen his lively inspiring iris videos, you will certainly recognize the phrase "are you kidding me" as his signature punchline. It is a very fitting name, and very descriptive of the way I myself felt the year it first bloomed. It comes from the line of unique iris that have been coined the 'pansy face' pattern. I love everything about this iris, from its lavender standards with maroon base, to its wide and ruffled falls with deep maroon central overlay. The beards are blended a mysterious old gold to purple. Strong growth and gorgeous show stems just solidify the deal. Sdlg. TN180A: Feel The Beat X Autumn Tease sibling \$75.00

Are You Kidding Me

ARTIFICIAL INTELLIGENCE (Thomas Johnson '26) TB Early-midseason 36" (91cm) Sweet fragrance. Standards have centers that are a deep purple graduating deeper towards the heart of the flower. A wide buff yellow band with subtle deeper gold veins rim the standards. White falls have wide, overlapping form, with a deep golden yellow band. A stunning reverse bicolor with large, wide, and ruffled flowers. Sdlg. TN27C: Mood Ring X Easy On The Eyes \$75.00

AT FIRST LIGHT (Thomas Johnson '26) TB Early-midseason 36" (91.5cm) Sweet fragrance. Sky blue standards have a deep reddish violet central wash. Falls are creamy white with slightly gold-touched hafts and a wide gold band. Well formed, ruffled, budded, and branched, **At First Light** comes from a very good cross that produced many introduction-worthy children. Sdlg. TN27EE: Artificial Intelligence sibling \$75.00

At First Light

**Autumn
Riches**

BAKER'S SECRET (Thomas Johnson '26) TB Early-midseason 36"(91cm) Sweet fragrance. Standards have an interesting blend of yellow and violet that creates a very rich brownish confection. The color reminds me of a dark cinnamon bun dripping with sweet frosting. Falls are white with the faintest of lavender overlaid, then edged with a deep golden yellow haft and band. **Baker's Secret** is absolutely amazing in a clump!! Sdlg. TN27QQ: Artificial Intelligence sibling **\$75.00**

AUTUMN RICHES (Thomas Johnson '26) TB Early-midseason 35" (89cm) Slight sweet fragrance. Light lemony buff standards are heavily shot pink in the centers, becoming veining towards the edge. Falls are a rich pumpkin orange. Nicely ruffled flowers that have amazing garden impact with color that radiates across the garden. Sdlg. **Ballroom
Gown**

BALLROOM GOWN (Thomas Johnson '26) TB Early-midseason 39" (99cm) Sweet fragrance. It is difficult to find the words to describe this one; the picture kind of says it all. Incredible form and with heavy substance, this stately luminata is characterized with a very wide rim on the standards. Intensely ruffled falls have a huge showy central luminata patch. At 39 inches, it is very tall for this pattern, which has tended to be on the shorter side. Show stems that can carry up to three branches, and spurs even on the branches, provide lots of buds for an extended bloom season. We have used this one heavily in our hybridizing program, putting it right at the top of our favorites list. Sdlg. TN21XX: Affair to Remember X Gone Viral **\$75.00**

BEATEN TO THE PUNCH (Thomas Johnson '26) TB Very early-midseason 38" (96.5cm) Slight sweet fragrance. Very light lemon standards with a violet flush at the base sit atop a very complex patterned fall; its lavender base color is overlaid with a deep violet brindled wash, then bordered in a buff pink band. Beards are a very weird brown to black. The whole package is quite dramatic and intriguing; it always draws me in from across the garden for a closer look. **Beaten To The Punch** is one of the first to start to bloom, and is held on tall, well branched and budded stems. Beautiful. Sdlg. TN89YY: Stitches sibling X Hit The Bullseye sibling **\$75.00**

**Beaten To

BEHIND THE SCENES (Thomas Johnson '26) TB TB Midseason-late 39" (99cm) Slight fragrance. Eggshell standards have an ecru to greenish yellow base. TN47ZZ: Feel The Beat X Space Signal **\$75.00**

Behind The Scenes

Blizzard Warning

BLIZZARD WARNING (Thomas Johnson '26) TB Early-midseason 37" (94cm) Slight fragrance. When faced with the daunting task of naming irises each year, I often put the photos up on the computer screen to help inspire me. When I saw all of the photos for this one, I instantaneously said "Blizzard Warning", because it just has a wintery blizzard sort of look. White standards sit atop white falls that are veined then washed bluish purple, with a light lavender edge. A very pretty color and pattern that certainly gets a lot of notice in the field. Sdlg. TN223C: This Is Crazy sibling X Just Between Us sibling **\$75.00**

CALL TO ATTENTION (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Slight fragrance. The nice contrasting of this bicolor definitely catches your attention. Medium lemon yellow standards are very clean and clear. Falls are a rich deep burgundy red with a narrow lemon rim. Beautiful, full, round, and ruffled form, with great clarity of color. Sdlg. TM113RR: Distant Shores X Painted Sky **\$75.00**

Call To Attention

Can Just Imagine

CAN JUST IMAGINE (Thomas Johnson '26) TB Early-midseason 40" (101.5cm) Sweet fragrance. Lavender blue standards; falls are lavender blue with a deeper violet blue brindled wash. Beards are burnt orange with lavender tips. **Can Just Imagine** is very tall and stately, with beautiful show stems. It is a 'fancy', which in hybridizing talk means it is about one generation away from being a luminata. A unique and striking feature is its beautiful lavender spathes and stems. It is very hard to photograph but is very noticeable in the garden. We have used this one quite a lot in hybridizing. A very pretty quality iris, and the product of two great parents. Sdlg. TN90ZZ: Beautician X Gone Viral **\$75.00**

Closing Ceremony

COMPLETE OPPOSITE (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Slight fragrance. What can we say about this one? Contrast certainly comes to mind! Deep blue purple standards sit atop cinnamon brown falls. Tall stems with lightly ruffled flowers have carrying power out the kazoo! Holy cow, does this one make a statement. It is the iris that garden visitors most often tell me about; it seems to imprint! Certainly unique, and won't be mistaken for anything else! Stems and branching are good. The flowers are not as wide and ruffled as I usually like, but are certainly adequate. Sdlg. TN13A: Mood Ring X unknown seedling **\$75.00**

CLOSING CEREMONY (Thomas Johnson '26) TB TB Midseason late-very late 38" (96.5cm) Slight fragrance. The name kind of tells you the story. It starts flowering with the midseason varieties, and continues through until the very end of the iris bloom season. Very rich pink standards repeat themselves in a soft band on white falls. Big showy powder blue beards certainly add a touch of class. Very nice form with good bud count and stems. A true delight to look at, it is a favorite for sure! Sdlg. TO160A: Somebody To Love X TK109ZZ: (TG52CC: (Uptown Lady x Don't Stop Believing) x Slice Of Heaven) **\$75.00**

Complete Opposite

COSMETOLOGIST (Thomas Johnson '26) TB Early-midseason 35" (89cm) Sweet fragrance. This is a plicata pattern that has a lot going on. Standards have a very light lavender ground, with lavender dotting showing in the center, and then becoming a medium lemon band. Falls are a light lavender white ground, with a deep burgundy haft bar, and a faint lilac lavender dotted edge. Even the beard is complex, with a white base and hair tips that change from burgundy to orange as it moves towards the heart of the flower. **Cosmetologist** comes from a line of plicatas that are not from traditional plicata breeding; they descend from recessive plicatas that appeared in bicolor breeding lines. Very nice form, bud count, and stems. Sdlg. TO237D: For The Ages X Open Flame plicata sibling **\$75.00**

Cosmetologist

COSMIC (Thomas Johnson '26) TB Early-midseason 33" (84cm) Sweet fragrance. Some iris have such a complex coloration that it is hard to describe. To make matters more difficult, the shade of purple in **Cosmic** can be different from day to day, and from year to year. We struggled to figure out which picture to use for the catalogue, and have included several shots on the website for you to see for yourself. No matter what the shade, **Cosmic** is a blooming fool, absolutely covering itself in bloom, and is intensely bright, with its very wide gold band in the standards, and yellow flash overlaying the white luminata patch on the falls. Sdlg. TO148A: Gone Viral X unknown **\$75.00**

Cosmic

DANCE FESTIVAL (Thomas Johnson '26) TB Early-midseason-late 38" (96.5cm) Slight fragrance. Lines, lines, and more lines! I have been working with this pattern for a number of years and have gotten some very interesting things. If I were to choose just one word to describe this, it would be floriferous! It completely covers itself in tall, well branched and budded stems, and blooms for a long time. It is not the first to start blooming, but about midway through the early season it starts, and goes and goes. The picture kind of speaks for itself. Check out the website for additional pictures of it, including clump shots. Sdlg. TN171ZZ: Open Heart X Leave Me Breathless **\$75.00**

DEEP APPRECIATION (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Slight musky fragrance. Deep black cherry to black standards show a slight bit of yellow ground in the center. Falls have a white ground with a lemon-yellow wash that is dotted deep black cherry, with a dark bar around the beard and line below the beard. The fall then has a wide black cherry band. It differs from its sister 'Love In The Dark' in that Deep Appreciation is near black, whereas the former is a very deep oxblood red. Very stunning! Sdlg. TM149QQ: Love In The Dark sibling **\$75.00**

Deep Appreciation

Disco Party

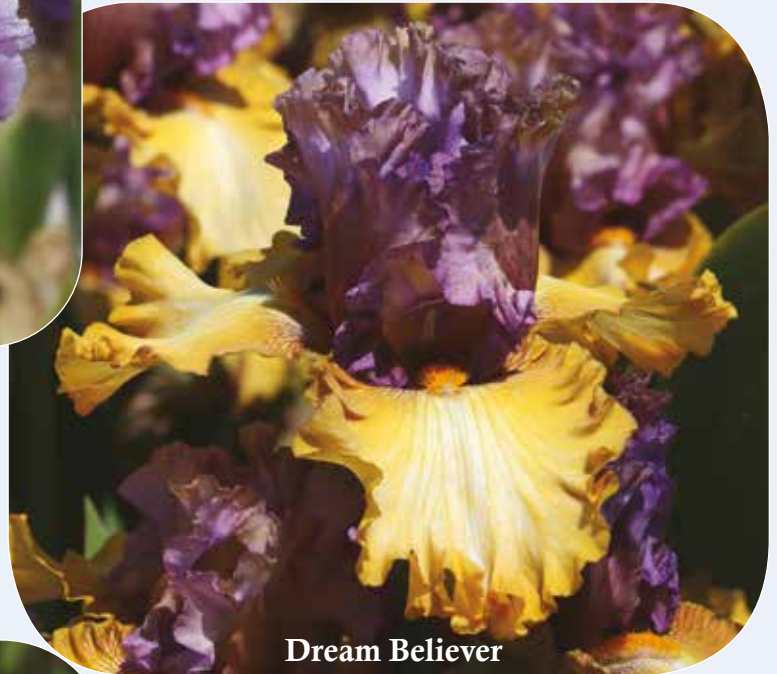

DISCO PARTY (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Slight fragrance. This beauty certainly reminds me of a wild disco party. Clean medium lemon-yellow standards are the perfect match for the wildly patterned falls. The large canary yellow sunburst center becomes a lavender to maroon wash that is then encircled with a lemon band. Nice, tall, well-branched stems carry the well-formed flowers with pride, screaming look at me! Sdlg. TM141B: Color Wheel X unknown **\$75.00**

Done Deal

DONE DEAL (Thomas Johnson '26) TB Early-midseason 40" (101cm) Slight fragrance. **Done Deal** is one of those iris that has it all: great form, branching, bud count, and vigor. Standards are a pearl white with pink and light salmon blended centers. Falls are a rich lavender with a deep red violet signal around the beard, which becomes a deeper lavender wash throughout the mid-section. We used this one quite a lot in hybridizing for all of its exemplary qualities. Sdlg. TN180ZZ: Are You Kidding Me sibling **\$75.00**

DREAM BELIEVER (Thomas Johnson '26) TB Early-midseason-late 36" (91cm) Sweet fragrance. Eye Love You

EYE LOVE YOU (Thomas Johnson '26) TB Early-midseason-late 36" (91cm) Slight musky fragrance. I have been working on the 'pansy face' pattern, or you could say 'signal' pattern, in TBs for quite a few years. Trying to get different colors in the pattern has been fun. **Eye Love You** has a lot going on in the color department. Standards are flesh to peach, with large pink centers and a lavender infusion up the midrib. Falls are light lavender with a deep maroon signal, and upon closer inspection, there is a very faint lighter peach band. The orange beard sitting on top of the maroon signal just makes the whole thing pop. It certainly makes for a brilliant display in the fields, and won't be mistaken for any other iris. Sdlg. TN31ZZ: Truth Or Dare X Autumn Tease **\$75.00**

EYE SEE YOU (Thomas Johnson '26) TB EMidseason-late 34" (86cm) Musky fragrance. One of the shorter TBs this year. **Future
Dreams**

FUTURE DREAMS (Thomas Johnson '26) TB Early-midseason 37" (94cm) Sweet fragrance. For many years I have worked with plicatas that are the result of outcrosses to bicolors, to increase vigor and bring more diversity in color and pattern. **Future Dreams** is so named because of the wide-ranging breeding potential in this pattern. Standards are deep lavender purple with darker maroon veining. Falls are white with a deep maroon haft and band. If that weren't enough, upon closer inspection, you will notice broken color within the band. A totally unique and distinctive color and pattern variation in plicatas. Flowers are well-formed, and carried on strong show stems with lots of buds. **Future Dreams** has a good pedigree, and once again shows the importance of 'Tenacity' as a parent, both for quality and diversity. Sdlg. TO236M: Running In Circles sibling X Tenacity **\$75.00**

GOING CONCERN (Thomas Johnson '26) TB Early-midseason 38" (96.5cm) Sweet fragrance. Another iris with a distinctive and complicated color scheme. Standards are very light yellow, with deeper lemon and pink blended centers, and lighter edge with lemon veins. Puzzle Piece

PUZZLE PIECE (Thomas Johnson '26) TB Early-midseason-late 37" (94cm) Slight fragrance. Iris have become such complex beings when it comes to patterns and application of color. The standards are pretty straight forward, being a brilliant golden yellow, but the falls are a bit more complex. There is a large and plush mahogany red signal spot in the center, but things get complicated in the band. There is a large wide band that circles the signal, but instead of it being one consistent color, it starts out as a light lavender and lemon blend at the haft, about half way down transitions to lemon, and finally shows deep gold at the distal end. The standard color reflecting itself at the distal end of the fall draws the eye across the whole flower and creates a very pleasing presentation.
